CASE STUDY #350 - 120m x 30m x 7m
Machinery Workshop and Storage Shed

CASE STUDY #350

120m x 30m x 7m Machinery Workshop and Storage Shed

AUSPAN Scope Outline

Value Bracket | \$500-525K
Manufacture | 6 Weeks
Site Time | 12 Days
Building Area | 3600m²

Machinery Workshop and Storage Shed 120m x 30m x 7m.

CLIENT BRIEF

AFGRI needed a structure large enough to handle storage for the pre delivery requirements of their large scale machinery dealership in Gnowangerup.

AUSPAN'S SOLUTIONS

AUSPAN were able to design a facility of adequate size while remaining within AFGRI's budget. This 3600m² facility was a reasonably simple build incorporating a large workshop area with wide access openings for movement of large machinery.

Features

- ▶ 3 x 16m door openings
- ▶ Custom tapered gutter system delivering all storm water to four corners of the building only. This allowed significant trenching/drainage savings for our client.
- ▶ Custom fire engineered solution enabling a strict budget to be met with a fully compliant building

120m x 30m x 7m Machinery Workshop and Storage Shed

“

IN OUR CUSTOMER'S

OWN WORDS...

Excellent! It is a good shed. Only problem the workshop guys can find is that the shed needs to be bigger in peak time!

Travis, Manager of AFGRI Gnowangerup

IN AUSPAN'S

OWN WORDS...

Biggest shed in town - it is located on the main road into town, was an exciting project to be involved with and is great to see it being put to good use every time I drive past.
